CPF 2-2013-1001

Dear Mr. Goodwin:

On June 10, 2013, the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS) issued to Gulf South Pipeline Company, LP (GSPL) a Final Order in the above-referenced case. The Final Order included an attached Compliance Order (CO) requiring GSPL to undertake certain actions to ensure compliance with the federal pipeline safety regulations.

The OPS Southern Region has received and reviewed several written responses to the CO from GSPL, including GSPL's final response dated December 12, 2013. Based on our review of these responses we have determined that GSPL has complied with the terms of the Final Order and CO. This case is now closed and no further action is necessary with respect to the matters involved in this case.

Notwithstanding the closure of this Final Order, it must be noted that actions related to CO Items 1C and 1D are ongoing maintenance activities. PHMSA inspectors will confirm compliance with these items during future on-site pipeline safety inspections.

Please be advised that this letter refers only to the above referenced order (**CPF 2-2013-1001**) and not to any other PHMSA cases, if any.

Sincerely,

Wayne T. Lemoie
Director, Office of Pipeline Safety
PHMSA Southern Region
